

TBM-1410

Tiny-Bus PCIe PCMCIA ExpressCard Module with ExpressCard/34/54 and Mini-PCI Socket

Key Features

The TBM-1410 is a Tiny-Bus® PCIe (PCI Express) based ExpressCard module offers the ExpressCard/34, ExpressCard/54 and one mini-PCI interfaces for the industrial small form factor (SFF) embedded x86-based computing applications.

- PCMCIA ExpressCard standard.
- Supports ExpressCard/34 and ExpressCard/54 add-on cards.
- One mini-PCI type-III A/B socket.
- Liantec embedded Tiny-Bus® Modular Expansion Solution.

Specification

Tiny-Bus® Modular Expansion Solution with x1 PCIe (x1 PCI Express) and PCI-based bus interface
 Supports ExpressCard/34 and ExpressCard/54 modules
 Bus master Type-III/A/B mini-PCI expansion module

External / Internal Connector

External ExpressCard socket
 Onboard 124-pin mini-PCI Type-III socket

Compatible EmBoard

ITX-6965	Mini-ITX Intel Mobile 965 Express EmBoard
ITX-6945	Mini-ITX Intel Mobile 945 Express EmBoard
ITX-6910	Mini-ITX Intel Mobile 915 Express EmBoard
ITX-6900	Mini-ITX Intel Mobile 915 Express EmBoard

Ordering Code

TBM-1410CP	Tiny-Bus ExpressCard and Mini-PCI Module Supports ExpressCard/34 or 54 and Mini-PCI Socket
